

## VEND-UCATION

NORTH PUTNAM COMMUNITY SCHOOL CORPORATION  
Department of Food Service

Dear North Putnam Community School Parents,

Our school district has purchased a new Healthy Vending Machine that will be located in the Middle School commons. This machine uses the same high security biometric validation on it that students currently use to purchase lunch. The students will be able to use their lunch accounts or cash to purchase healthy snacks. Parents need to understand that when you put money on your child's lunch account they will be using that money for lunch but can also use it for the vending machine to purchase healthy food after school. Parents that place limitations on your child's lunch account will extend to the vending application as well. All grade levels K-12 can use this vending machine.

Most of the food items that will be put into the machine will be freshly made by our kitchen staff. Here are some of the items that will be in the vending machine:

- Turkey and cheese or ham and cheese wrap sandwiches
- Cheese sticks
- Yogurt parfait
- Salad
- Uncrustable
- Pudding cups
- Baked chips
- Cereal bars
- Milk
- Water
- Powerade
- Juice
